In our final VWC before our annual IMC meeting on September 30th, we will review and discuss our ideas on visioning topics and questions for NSF. We anticipate several NSF officers from the LTER Working Group attending our meeting for a 4 pm (PDT) session. Our visioning discussion will be a 90 minute breakout where we discuss various topics within small groups and then report back to the whole group.

IM-Exec (mainly Stevan) has prepared a couple of documents for your review before the VWC on Monday. These were originally embedded in our proposed agenda, but we have pulled them out as separate documents.
