August 6/7 2012 - EML data package checks and PASTA quality engine

Mon, 07/23/2012 - 1:45pm — mobrien

Work on EML quality reports began in 2010 and progressed through 2011 and 2012. In spring 2012, the IMC held a workshop to finalize the comprehensive set of checks for PASTA, a workshop was held in Spring 2012. The IMC has received a report of the quality checks and checking software developed to date. These water cooler sessions are reserved for further report (as necessary) and for discussion of those efforts.
