April 2019 VWC - Annual Meeting Pt.2 and Next Generation Climate and Hydrology Data Work- shop Report

Wed, 04/03/2019 - 8:14am — jdowning

At the water cooler this month we will be have some continued discussion of sessions for our annual meeting this summer (the ESIP deadline is April 26th!) and then a presentation from Suzanne, Don, Margaret and Wade on the Next Generation for Network Climate and Hydrology data workshop that took place in Albuquerque March 12-14. They will present the information discussed, the decisions they made and the steps going forward. As usual, there should be time for questions and discussion.

The google spreadsheet where we brainstormed session ideas at the water cooler last month has evolved to have new tabs specific to either the IMC or ESIP sessions as well as a tab for anyone that plans to attend to sign up. Here is that link once again so please revisit it and fill in any information you can:

Once again, here is the standard connection information; see you all on Monday
April 8th at 12 pm PDT / 3 pm EDT

Connection: <https://ucsb.zoom.us/j/419931872> [2]

Gastil and Stevan each contributed notes from this meeting.
