Virtual Update Notes Sep 6 & 7, 2011 - Network Information System (NIS)

Tue, 09/06/2011 - 12:16pm — jbrunt

James Brunt and Mark Servilla gave an update of activities at LNO, especially the NIS development.

Brief outline:

1. LNO is setting up a huge data storage system for all sites to use.
2. Synthesis Data RFP coming along. (The former Legacy Data project.)
3. NIS Schedule updated, still on target for prototype PASTA in Spring 2012.
4. StreamChemDB integration with the NIS
5. Reminder that Production Workshop proposals are due Nov 1.
6. LNO is making a new homepage design; Marshall is working with the committees on this.
7. Leanne is working with the SchoolYark, getting static content into a CMS.
8. Yang worked with Clim/HydroDB, next will be BibDB. She gathered a sites profile sheet.
