Fri, 12/15/2017 - 1:14pm — jdowning

Date: Monday, December 11th at 12 pm PST/3 pm EST

Topic: Planning for 2018 ASM

LTER All-Scientists' Meeting

Next Generation Synthesis: Successes and Strategies

Committee Meetings: September 30, 2018

All Scientists' Meeting: October 1-4, 2018

Asilomar Conference Grounds, Pacific Grove, CA

There is no formal presentation for this VWC. The idea is to brainstorm and discuss our one-day IM meeting. What are things/sessions/activities that people found/find useful or not (i.e. lightning talks versus site bytes; breakout groups; formal or informal updates from NCO, EDI, Working Groups, etc.). Additionally, we will begin to solicit working sessions for the ASM and we can discuss topics and how to include more scientists.

For preparation, please think about what are the things that you would like out of our one-day meeting. Are there topics that you would like us to address? Is there some product that we should be striving towards? Please spend some time thinking ahead of time and bring your ideas. If you are not able to attend, you may share your ideas with IM-Exec via email.
