February 2019 VWC - Biblio Hour +

Tue, 01/29/2019 - 4:00pm — jdowning

The next IMC water cooler will be on Feb 11, 2019 and our main topic of discussion will focus on a couple topics related to bibliographies. First, Tim Whitaker will discuss the recent LTER working group on Zotera best practices and then Marty Downs will talk about some of the recent NCO activities with the LTER all-site bibliography. There should also be some time to address any specific questions relation to the bibliographic component of the Decadal Review request from the NCO.

In addition to the hearty main topic, we would also like to take just a couple minutes to discuss the a recommendation to adopt the FAIR Data principles. IMexec believes the IMC should ask the EB to approve becoming a signatory of the FAIR principals because key affiliates like EDI and DataONE have already signed on as a signatories and the principles are in line with the LTER policy. Information on the project can be accessed with the following links and the details of our recommendation are in the attache PDF.
