Virtual Updates April 16/17 2012 – Data Availability Plan

Virtual Updates April 16/17 2012 – Data Availability Plan

Mon, 04/09/2012 - 11:42am — mobrien

During recent meetings of the EB, IMExec and NISAC, the topic of LTER data availability was prominent. In short, the network must dispel the notion that LTER data are not readily available online. The April water cooler VTC will focus on this topic, particularly on the plans and funding to address some of the issues, and will include a discussion on funding models for IM supplements.

Doodle poll [1] for signing up.

Agenda
5 minute introductions
- EB: Emery
- IMExec: Don [notes can be found here: http://im.lternet.edu/news/committees/im_exec/notes/2012_04_3 [2]]
- NISAC: John
- LNO: James (tentative)
- Draft data availability plan: Margaret
